

PMSolutions Property Management Software, Reservations and Accounting

PMSolutions® is a property management system for the hospitality industry. An internet-based application, PMSolutions® requires no hardware other than a PC or Mac with an internet connection. The level of connectivity is flexible: dial-up, DSL, T1 and cable modems can all be used to access PMSolutions. PMSolutions is a comprehensive system with an extensive feature list, including but not limited to:

- Reservations
- Housekeeping
- Maintenance
- Owner Accounting
- Invoicing
- Vendor Bills
- Reporting
- Accounting
