

Reservations

PMSolutions" has many features that help you manage your reservations. Your system maintains a complete reservation history, enabling you to track trends and take care of repeat guests.

You have access to the "Availability Board," a graphical tool that not only displays reservations, but also gives you the ability to make reservations and go directly to a reservation's details.

From the reservation detail page you can easily change dates, relocate, or cancel a reservation.

You also have the power to easily modify any aspect of the reservation details.
